

DW-Series Single Screw Squeezer

Plastic film recycled material usually retains 30% or more of moisture after washing process.

This equipment helps reducing excess moisture and the volume of the recycled material, increasing the quality and efficiency of granulation.

Feature:

- Easy operation
- Energy saving
- Safety design
- High efficiency

HDPE

LDPE

PP

DW-300

Main motor power	125HP
Cutting power	5HP
Capacity	PE: 500~600 Kg/hr PP: 300↑ Kg/hr
Moisture	3%~8% left after drying

DW-350

Main motor power	175HP
Cutting power	5HP
Capacity	PE: 800~1000 Kg/hr PP: 500↑ Kg/hr
Moisture	3%~8% left after drying
